- Comment -

One of the rarest opportunities in the Sable breeding industry is the chance to acquire a true Mumba daughter – and this one cuts especially deep to let go. In our opinion, she is not only the best female ever bred by Romaco, but also the finest Mumba female ever made available to the market. On the paternal side stands the legendary Mumba, a bull whose success speaks for itself throughout the industry. On the maternal side, she traces back to the exceptional Dinaka line – the very same bloodline that produced the iconic 62" Armstrong. Add to that the powerful Western Zambian genetics responsible for 53" Shakespeare, and you have elite, top-end genetics woven through every part of her pedigree. From start to finish, she represents the pinnacle of proven Sable breeding genetics and offers a foundation capable of producing the next generation of industry-leading animals.

In calf to: 53"+ Shakespeare

Sire: 49 2/8" Mumba

Paternal Brother: 57 4/8" Dries

LINEAGE: 54" CHARLIE JNR, PURE ZAMBIAN SABLE BULL

- Comment -

Proven **54"** PURE Zambian bull (**96%** Zambian). Representing elite Zambian genetics of the renowned Charlie and Madala lines. A magnificent specimen of PURE Zambian phenotypic and genetic excellence. Truly impressive with classical Zambian dark mask, muscular body and class - leading horn length, with a Tip-to tip of **36 5/8"**, shape and symmetry with thick **10"**+ bases. His sire, **51"** Charlie (**99%** Zam) and his grandsire 48 4/8" **WZ Madala (90% Zam)** need no introduction. Contributing to this elite genetic make-up is his **35 3/8"** Dam, Blue 7 (**90%** Zam) and his paternal granddam - the legendary **34 4/8"** Ouma Bok (**95%** Zam). Charlie jnr is more than a genetic asset - he is a statement of prestige, carrying forward the legacy of PURE Zambian excellence and offering unmatched PURE Zambian breeding potential.

54" *Charlie Jnr.*

- Comment -

Impressive young **13 stripe** Bushveld Livingstone Eland bull. Wide horned and exceptionally long horned for his age. Displaying all the sought-after true Livingstone Eland characteristics: prominent chevron, well defined stripes, red colour and black markings. Sired by **15 stripe 34 1/8" Simson**. A young Livingstone bull with the look and bloodline to uplift your herd.

Sire: 34 1/8" Simson

Comment – Pure Zambian Sable Royalty at its best with this **96% Zambian** heifer. Measures incredibly well for her age with a length of **31 5/8"** at just over 4 years. She's got the classic Zambian look - the length, the width and most importantly she's got the pedigree! Sired by **51 1/8" Amarula**, son of renowned **53 5/8" WZ Piet** and **30 4/8" Yellow 219 (95% Zambian)** - one of Zonnebloem's initial hand-picked breeding cows as her dam. Certified in calf to one of the biggest known pure Zambian Sable bulls in the country - **57 1/8" Alaska (95% Zambian)**, son of **51" WZ Kapiri** and grandson of **53 5/8" WZ Piet**. Unmatched explosive potential showcasing the pinnacle of pure Zambian Sable breeding!

- Comment -

Golden King heifers with beautiful golden colour, blonde mane and Golden King spots on both sides. Sired by Golden King **29 5/8"** Legadima and Rooi Malema as grandsire. These heifers are the paternal sisters to **30 5/8"** Dominator, **29 3/8"** Stalin and **29 1/8"** Hercules. Running with some of the largest Golden Gnu Bulls in the industry, **32 13/16"** Swarovski and **33 7/8"** Dricus. Golden King Wildebeest is one of those special variants that can add new dimension to colour variant breeding. By introducing these heifers you will surely take your Golden King breeding to the next level.
